

Route Directions

- 1 Park by Colwall Church (SO 739423) and walk north along the road for 50 m before going over a stile and heading for the corner of the farm buildings, where you veer right to cross two small fields and a brook.
- 2 Turn left and recross the brook at a double stile bridge. Cross the field (aiming to the right of the house 300m ahead) to reach the road.
- 3 Turn left for 60m and then right into a field keeping the boundary on your left for 200m.
- 4 Cross a small stream and keep going in a westerly direction with the boundary now on your right through several smallish fields. You will skirt some stables and will join a road at a white gate (Pithouse Farm).
- 5 Turn left and keep going west until you meet a junction after a short climb.
- 6 Turn right at the junction and follow the road for 350m. When you meet another junction turn left for a further 300m.
- 7 At the next junction, veer right and you will shortly see Coddington Church straight ahead of you.
- 8 Carry on round the church following the footpath sign (leaving the School House on the right). It is possible to park at the church (SO 718427) and start the walk from here. When the metalled road finishes, turn right down a track.
- 9 As the track turns right, turn left over a stile. After 100m, cross two stiles, turn left and cross a track to enter the vineyard through a swing gate. Follow the signed path through the vines and pass to the right of a pond and across a bridge. Go through a marked gap in the hedge a few metres to your left.
- 10 Cross the road and enter a field a few metres to your right. After 50m cross a stile on your left and aim for a jutting out hedge and carry on along the line of the electricity poles until you reach the road. This involves a long gentle climb of about 800m.
- 11 Turn right and carry along the road for 500m until you meet a junction.
- 12 Turn left and continue for 350m.

Walled Garden at Hope End

- 13 As the road veers right, turn left onto a footpath (to the left of the Hope End sign); follow the path and after 800m pass over a little stile to have a wood on your left.
- 14 After another 350m, pass over a stile onto Oyster Hill going past the seat and leaving the trig point just on your right. Carry on down until you meet a track; turn right back up the track and veer to the left keeping the railings on your left until you reach a stile.
- 15 Keep the park railings or hedges on your right; this is initially fairly flat before going downhill. Care needs to be taken for part of the descent is steep and slightly slippery and it is easy to be distracted by the daffodils and bluebells. At the bottom of the hill keep the red house on your right as you meet the road.
- 16 Turn right along the road and where there is a junction (which uses an old finger post sign). Go through the metal gate opposite into an orchard; keeping the hedge on your right go to the far end of the orchard.
- 17 Cross three stiles in quick succession and proceed to the end of a narrow field.
- 18 Cross the stile and then a plank bridge before doubling back across a double bridge and aiming back to Colwall Church.
